WHY WE LOVE IT Seasons may change, but plaid's popularity is perennial. With crisscrossing stripes and intersecting colors, plaid generates dynamic energy, adds texture, and brings a touch of seasonal charm to any room.

WHAT'S NEW Tartan, madras, gingham, windowpane—plaid comes in a variety of styles that riff on its Scottish highland roots. Mix and match patterns in lively colors to keep this old favorite feeling fresh.

WHERE YOU'LL SEE IT You'll see plaid on everything from fuzzy wool throws to playful decorative accessories. The pattern pairs especially well with on-trend materials like plush velvets, warm woods, and brass.
